

## Post 16 participation in Education, Employment or Training

The law requires all young people in England to continue in education or training until at least their 18<sup>th</sup> birthday, although in practice the vast majority of young people continue until the end of the academic year in which they turn 18.

This graph shows the percentage of pupils who either stayed in education or went into employment after finishing key stage 4 (after year 11, usually aged 16).

At Cantell we strive to achieve as close as possible to 100% and continue to support students even after they leave year 11 if they need additional Careers advice and guidance.

This figure covers sustained education or employment destinations.
